Fall 2008

420 NE Windy Knolls 541-385-5298 133 SW Century Drive 541-389-4620 www.bendpetexpress.com

Seasonal Tips

As the days get cooler, you may find your dog's appetite increasing. Remember to increase their feeding portions gradually; adding ten kibbles to their current level in two-day increments will give you a great opportunity to see how your dog is reacting. As soon as they get gassy, it is time to level off or even take ten kibbles off that amount.

Delivery Service

We are proud to say the delivery service is up and running. With the kids going back to school and the holidays rapidly approaching, fall's pace is slightly more hurried than that of summer. It's easy to forget things in these busy times, don't let your pets health be forgotten. Let us bring Bend Pet Express to you. It's easy. Just go to www.bendpetexpress.com.

*Location: Eastside Store
Sara Dice, Bend SNIP*

Come and hear about Bend SNIP's primary mission and how your donations help accomplish that mission.

Pet Product Ideas

Great Pets Deserve Great Beds

During the fall our pets will probably spend more of their time inside. Make your pets' time inside as comfortable as possible with one of our new Dolce Vita pet beds. Whether it's an old dog with arthritis, or a puppy or kitten that can't maintain their body heat very well, all pets will benefit from these beds. We have two varieties, either the Therapeutic Heated Dog Bed Cushion or the DuoTemp Pet Bed.

The Therapeutic Heated Dog Bed Cushion offers safe, evenly distributed warmth coupled with an orthopedic foam pad. Utilizing its flat panel, even-temperature technology, this bed provides an evenly distributed temperature between 100 and 102 degrees. The orthopedic memory foam pad evenly distributes your pet's weight to help relieve aching joints, muscles, and bones. The heating element is wrapped in moisture-resistant, flame retardant material, and laminated to make it puncture resistant.

The DuoTemp Pet Bed is a great year round bed here in Central Oregon. It not only provides evenly distributed heat to keep your

furry friends cozy in the winter, it provides cool air to keep your pets from overheating in the heat of summer. Pets can overheat as a result of high temperatures or strenuous activity, but they also may overheat due to stress. In this regard, the DuoTemp Pet Bed may help alleviate some mild cases of separation anxiety.

Both Beds share these features:

Micro suede Fabric Covers- this soft, comfortable fabric is stain, scratch, and moisture resistant. Easily removed and machine washable.

Low Voltage Connection- safe, even if your pet chews through the cord.

Temperature Regulation System- ensures hot and cold spots do not form in the heating element, providing safe, effective relief.

Non-skid Bottoms- helps keep the bed from slipping, even on the slickest floors. 🐾

Local Nonprofit Spotlight

Summer Fund Raisers Success

Thanks to your efforts during Hydrate and Help and the kayak and bike raffles, we were able to raise over \$4,000, all of which will go directly to the Bend Spay and Neuter Project. Since their inception in 2005, they have altered nearly 14,000 cats and dogs, and have found homes for almost 250 cats this year alone. Thank you for helping a great cause, efforts like these make Central Oregon a special place to live. Congratulations to our winners of the raffles, Andy Hood won the kayak and Rose Makena won the mountain bike.

Product Update

New face for an old favorite.

Innova is excited to announce some changes to their ever-popular pet food line.

First and foremost, the bags will have a face-lift, so don't be surprised when you come into the store looking for the big green bag and there's something different in its place.

In addition to the tried and true Turkey & Chicken formula, Innova has added a red meat formula to its line. The protein sources in this formula will be beef, lamb, bison, and venison, the same found in Evo Red Meat. This should make rotating your dog's protein sources much easier if you currently feed the turkey & chicken formula. Also, garlic is being replaced with pumpkin, which is a great digestive aid.

Lastly, the bag sizes have changed. Small bags will be 5 #, medium 15#, and large 30#. Innova feels this will help make comparing Innova against other foods much easier.

We encourage you to visit Natura's (Innova's parent company) website at www.naturapet.com for more details about these changes.

Congrats

We've had some additions to the BPE family. Jordan (westside manager) was married Aug 16th to Tara. Sarah (westside retail) gave birth to June, a healthy girl on Aug 25th. Welcome Tara and June Bug.

Product Update

Comfort and style done your way.

Most likely your home has a particular style, now you can customize your pet's next bed to match that style. The ever-popular Bumper Bed from West Paw is now available in a variety of colors and patterns; it's up to you to pick the combination. These beds are filled with 100% recycled inteliLoft™, making it one of the most eco friendly and comfortable beds available. Made in the US.

Hot Dog

Keeping your chilly dog warm.

As summer fades into fall, the days grow shorter and the temperatures get cooler. Our furry friends welcome this change, but to some of our shorter coated pups, this is far from a good thing. No worries, come in and try one of our many styles of dog jackets to help keep your pup's spirits up even as the temps are going down. We have everything from the easy to put on horse blanket style, to the all-weather nylon shell, fleece-lined outer wear style. (Note- it is highly advisable to bring your dog in to the store in order to fit them correctly.)

Light up your Nights....

Night comes earlier and earlier in the fall. This can sometimes put you and your dog in dangerous situations during your nightly walk. Be proactive in alerting others to your location by using one of our reflective or lighted products.

Reflective Jackets provide maximum reflective surface area, while simultaneously providing your dog some relief from the elements.

Reflective collars are great because you don't have to fuss with putting any additional gear on your dog.

Lights and lighted collars help to alert others of your dog's location with the convenience of being removable during day light hours.

Yum Yum

We know many of our doggy friends were disappointed by the closure of our bakery, but we have found many healthy, yummy replacements, such as:

Simon & Huey's bulk scoops, these small, crunchy morsels come in peanut butter, turkey, and salmon.

Krazy Dog Café's lineup includes Puppy Pops, Banana Biscotti, Beef and Chicken Donuts, and Peanut Butter Ponies
